

# VW Bug Freezer Paper Stencil Instructions

homemadecity.com

## Materials

White or natural cotton fabric  
Fabric paint  
Stencil (attached here)  
Freezer Paper

## Tools

X-acto knife  
Cutting board/surface  
Masking tape  
Iron and ironing board

## Steps

1. Print out VW Bus or VW Bug stencil from homemadecity.com. Using masking tape, adhere the freezer paper—shiny side down—onto a cutting board and tape your image on top of it.
2. Cut out the gray/colored parts of the stencil with a good, sharp X-acto knife. (The parts you cut away will become the painted portion of the image.) This is the most tedious part of the process—take your time!
3. Lay the shiny side of the freezer paper down on your fabric. Iron the stencil down.
4. Paint or dab in fabric paint. Periodically hold up the fabric to a window or light to make sure you haven't missed any spots.
5. When the paint dries, peel off the freezer paper. Heat-set the fabric paint by running your iron on the reverse side of your image.

## VW Bug Freezer Paper Stencil
